

Barriere, BC

WHEEL LOADER OPERATOR

Roles/Responsibilities

To support the log yard/milling operations through the efficient and effective operation of the wheel loader. Specific responsibilities include:

- To operate and maintain CAT 950GC and Volvo L110H wheel loaders.
- To support milling operations by feeding both the scragg and bandmill infeeds.
- To organize logs for the HMC debarker and feed logs to debarker and remove debarked logs and organize for milling.
- To load pulp chip and hog trucks
- To perform yard maintenance and organize logs as directed by the Log Yard Supervisor
- To work cooperatively and safely with other log yard operators and as part of the Woodco team.

Requirements

Experienced, safety-focused operator with expertise in heavy machinery operation and maintenance. Proven track record of effectively managing equipment and ensuring efficient production processes. Skilled in conducting routine inspections and troubleshooting equipment issues to minimize downtime.

Shift

Daily: 6:30am - 4:00pm, ½ hour lunch on employee time, 2 x 15 min paid coffee breaks. Days may start earlier or go longer depending on log yard activities.

Weekly: 4-5 days per week.

Pay: \$25-28/hr per hour

Reporting to: Rod Fowler - Log Yard Manager
